Subject: Microsoft Settlement

Dear DoJ:

The proposed settlement with Microsoft is fatally flawed and will not accomplish any useful modification of Microsoft's behavior. The evidence mounts that government, and especially the Department of Justice, is loosing credibility with the public. Please do not participate in actions that will be viewed in the light of history as government complicity with what were once termed "racketeers". Microsoft has already been found guilty. Please do the duty you ask us to do every time we serve on a jury.
